

TOSCA OUTDOOR

Model No. 1380

DESIGN DR. PATRIC DRAENERT

An ensemble consisting of coffee and side tables that implement a vision very aesthetically: the use of natural stone as a filigree design element for the living area. The soft edge allows the stone of the table top to run out. This creates a delicate silhouette. All types of natural stone are available. The frame made of bent round steel is coated in dark bronze or painted in other colors.
