### 1430 COOPER

Dining table top of solid wood, base of natural stone or slate gray concrete  
Design Wolfgang C.R. Mezger, 2025

COOPER presents itself as an exceptional and contemporary interpretation of the classic table. The deliberately placed, asymmetrical freeform shapes of the tabletops create exciting perspectives and encourage lively conversation. The combination of an expressive solid wood tabletop with artfully arranged bases made of "Golden Black" natural stone or concrete creates a captivating aesthetic. The solid bases not only lend the table impressive stability but also impress with refined materiality and compelling composition. The inviting feel of COOPER is further enhanced by the gently rounded table edge, which invites a unique tactile experience.

FURTHER INFORMATION: e.g., dimensions and material options, see "Data Sheet"
