

# TADAO MAGNUM

---

Model No. 1516

## DESIGN DR. PATRIC DRAENERT

We have advanced the perfect hospitality of the TADAO table: the rotating inner tabletop, inspired by Asian table culture, is now motor supported and enables even more comfortable encounters at the table. Different speeds and directions can be individually controlled using a quiet, battery operated geared motor. In permanent mode, the inner tabletop rotates at a gentle speed without interruption. In stop and go mode, it only rotates when necessary. And the whole, of course, with Bluetooth remote control.

## AVAILABLE IN THE FOLLOWING MATERIAL VARIANTS:

Stone

Base	slabs	diameter approx. in cm	inner top approx. in cm	height approx. in cm
three-star stonebase	3	200 - 260 ø	120 - 180 ø	74

**Description** TADAO Magnum is a round dining or conference table with a rotating inner top. The particular feature is that the rotating inner top is not attached, but integrated on the same level as the main top. For dimensions exceeding a diameter of 200 ø cm, we need 2 stone slabs for the table top and one for the base. Either the slabs will be mirrored or jointed to follow the veining. The outer ring consists of two parts, the inner rotating top is assembled of 2 stone halves.

**Dimension** The possible dimensions range from ø 200 cm to ø 260 cm. Kindly ask for your preferred size. Due to the great number of variances, we may not state any prices here.

**Table tops** We offer 150 different natural stone types for your selection (pages 4-5).

**Base** stone base The stone base is made of 40 mm thick side walls:  
 - assembled as three-star  
 The stone selection can be made according to the table top.  
 Alternatively as well a different stone type may be chosen.

**Note:** Feasibility and prices on request. We will gladly design your custom-made conference table. Please feel free to contact us.

Base	slabs	diameter approx. in cm	inner top approx. in cm	height approx. in cm
round metal base	2	200 - 280 ø	120 - 180 ø	74
